<i>Description of Services</i>	<i>CPT Codes</i>	<i>Rate</i>
--------------------------------	------------------	-------------

- ☐ Digital mammography technology may be used to screen women for breast cancer.
- ☐ Surgical facility reimbursement is paid for outpatient surgery only. Claim lines containing allowable codes will be paid at the MBCHP rate. Reimbursement for the remaining claim lines that are related to allowable procedures will be calculated at the CURRENT Montana Medicaid statewide outpatient "cost to charge ratio" (CCR). The current CCR is .52%.
- ☐ HPV (87621) testing is a reimbursable procedure only if used in follow-up of an ASC-US Pap test result from the screening exam.
- ☐ When submitting a claim for an interrupted colonoscopy, professional providers are to suffix the colonoscopy code with a modifier "53" to indicate that the procedure was interrupted.
- ☐ Medicare has special payment rules for multiple endoscopies performed on the same day. The MCCP will process endoscopy claims in accordance with these rules. When multiple colonoscopies are performed, the colonoscopy with the highest fee schedule amount is reimbursed at 100% of the fee schedule rate. The additional related colonoscopies are priced by subtracting the base colonoscopy (CPT 45378) price.
- ☐ In order for a claim to be paid, it must be received within 365 days of the date of service.
- ☐ These rates may be subject to change if Medicare Participating rates change during the year.
